Contact your energy retailer.

Many people are finding it hard to pay their energy bills.

Contact your energy retailer first.

This will stop your electricity being disconnected. Your energy retailer must help you when you contact them. **To contact your energy retailer, you will find their number on your bill.** You can also ask about their hardship program to find out what help is available to stay connected.

Your energy retailer can help you with:

- setting up flexible, interest-free payments
- hardship support – you cannot legally be disconnected if you continue to make the agreed payments on a hardship plan
- getting a better, cheaper energy plan (if applicable)
- finding ways to save energy
- information on government supports available to you.
